A COMPLETE EXPRESS SERVICE from your door to the door of the receiver—and entirely by Illinois Traction System equipment.

A fleet of specially designed auto trucks is now at your service, forming contact between your door and fast, frequent express trains serving Illinois Traction points.

A call to your Illinois Traction office will bring a truck to your home or business address to pick up your shipment.

"Collection and delivery" service is maintained within designated limits in cities large enough to warrant such service.

"Station to station" service also given at rates 20 per cent lower for those desiring to deliver and receive shipments at our stations.

Notice to the Public

Because of carelessness in addressing and preparing matter for mailing, failure to use complete street addresses, or failure of sender to place his name and address on it, many letters and other pieces of mail fail of delivery, or are materially delayed. The public is urgently requested to exercise the greatest possible care to see that mail is sufficiently and correctly addressed, in order to secure its prompt and certain delivery, thereby relieving the postal service of much unnecessary expense and increasing its efficiency.

Postal laws require that mail be addressed to street and number.

Invariably use your city directory in obtaining the complete city or rural route address when addressing mail for local delivery.

REASONS

Why You Should Advertise In the City Directory

It is in constant use longer than any other publication.

It is consulted by more people than any other publication.

It contains all the information concerning the city and its people.

It consists of information, and advertising is information about your business.

It is recognized as a standard medium the world over.

It is used by the largest and most successful firms and their example is a good one to follow.

Its cost is insignificant.

It pays others, it will pay you.

It reaches all the people all the time.

It is a credit and a boost to the community and everyone is interested and represented in it.

FOREWORD

IN THIS, our Eleventh Annual Directory of the City of Springfield, we have endeavored to give, in the most concise manner, all the important information usually desired by the public. How well we have succeeded can best be shown by use of the different sections contained herein. (See special features outlined below.)

We hope you will find this book of real service, both for business and private purposes.

To the many who assisted us by giving information, or in any other manner, we wish to express our appreciation. Especially do we thank the advertisers who make possible a necessary work of this kind.

*In addition to the usual Alphabetical, Classified and Miscellaneous Information and Street Guide, we give a Street Car and Bus Line Guide to every house in the city, also Property owners and Business Guide (in Street Directory). The numeral after wife's or husband's name, in General Directory, indicates number of children under 15 years of age. A property owner is indicated in Street Directory by a * after his name.*

POPULATION 75,802

(These figures include about 5,000 population just outside of official city limits.)

Notice to the Public

Because of carelessness in addressing and preparing matter for mailing, failure to use complete street addresses, or failure of sender to place his name and address on it, many letters and other pieces of mail fail of delivery, or are materially delayed. The public is urgently requested to exercise the greatest possible care to see that mail is sufficiently and correctly addressed, in order to secure its prompt and certain delivery, thereby relieving the postal service of much unnecessary expense and increasing its efficiency.

Postal laws require that mail be addressed to street and number.

Invariably use your city directory in obtaining the complete city or rural route address when addressing mail for local delivery.

STREET DIRECTORY

AND STREET CAR GUIDE

OF THE CITY OF

SPRINGFIELD, ILLINOIS

1926

This section shows the family head or business firm opposite their respective numbers.

Streets number north and south from Washington; east and west from First.

The even numbers are on the east and south sides of all streets; the odd numbers on the north and west side, excepting some few which are misplaced.

➔ Resident owners are indicated by a star (*) after name, business firms by (**) after name; ½ denotes second floor; ⅓ third floor.

➔ Street intersections are shown in black face type between the blocks. Street car guide is under each description.

you of further annoyance.

REASONS

Why You Should Advertise In the City Directory

It is in constant use longer than any other publication.

It is consulted by more people than any other publication.

It contains all the information concerning the city and its people.

It consists of information, and advertising is information about your business.

It is recognized as a standard medium the world over.

It is used by the largest and most successful firms and their example is a good one to follow.

Its cost is insignificant.

It pays others, it will pay you.

It reaches all the people all the time.

It is a credit and a boost to the community and everyone is interested and represented in it.
